Beach villa „The Sun“ in Pineta, Italy

The Pineta is a beautiful holiday resort on the coast of Italy in the north part.

Our house is a new villa built on the beach. The villa is built in a cascade-style and the rooms inside are very spacious and light. It has five double bedrooms, two living rooms, kitchen and three bathrooms. All the rooms have air conditioning and the bedrooms have their own balconies with seating area. There is a wooden terrace with chairs and table. So you can eat outside directly on the beach or you can go to the garden. There are many old trees, which create pleasant the shade. There is a private swimming pool.

The house is near aqua park, where you can do lots of water sports, or only ride on the some of the toboggan. It is also a short drive from the city Bibione, where you can go to the city center, for example on the dinner in some of the pizzerias.

This house is perfect for a group of the friends or for several couples. It is a smoking house and is suitable for pets.
