Task: The report can contain between 140 and 190 words.

Report on my hometown

Paragraph 1: introduction

The purpose of this report is to inform the public about the leisure facilities in my hometown Dolní Benešov.

Paragraph 2: the first point

My hometown would be greatly approved by building more sport leisure facilities, since there are very few of them there. The only facilities there are two football fields, that are accessible only to footballers and their coach. There is also small gym. However, it is **overpriced** and **run down**. On the other hand the village is great if you like jogging, for it is peaceful and has a beautiful scenery.

Paragraph 3: the second point

Nobody could deny that food is important too. Nevertheless, the only place where you can eat out is at a packed out butchery “Klemens” and at a very small restaurant “Jeníček”, which is open only on Mondays and Fridays. People can get their groceries at a shop “Hruška”, but it is usually **overcrowded** and there aren’t many products.

Paragraph 4: conclusion

The amount of leisure facilities in Dolní Benešov is very limited. It would be nice if the football fields became accessible to the public. Also, if it were up to me, I’d build a shop with healthy food and reasonable prices.
