Louis Braille is know as inventor of braille. He was born in 1809 in Coupvray near Paris in France.

His father repaired saddles for horses. Unfortunately, when Louis was three yers old, he hurt his left eye father's tool. Later he lost sight for both eyes.

It was really sad for him and his family. He learned to live with this big problem.

In 1819 he started to learn at school for the blind childern. There he got an idea. He invited the more simple system of raised points and he created alphabet of them.

Finally, Louis Publisher his book for blind people and just in 1837 used his alphabet all world.

Louis Braille gave blind people new hope in literature.
