My family has six members, mom, dad, older sister Andrea, two older brothers Vojta and Lukas and me. We have a dog and his name is Gaston.

My closest member of my family is my mum. She is tall and slim, she has long dark hair and brown eyes. She likes sports especially winter sports such as skiing, snowboarding and skating. Her hobbies are walk with dog, watching comedy films and cooking. She cooks excellent sweet sauce with dumplings.

We meet with distant relatives a few times a year. For example together we celebrate Christmas, New Years Eve, Easter and birthday parties. Every summer we go to the cottage, near Jihlava. We grill in the garden, drink some drinks, play games, and in the evening we sit around the campfire and sing some songs.

Christmas is the most popular in my family, because we decorate the house with advent wreath, candles, garlands and Christmas tree with garlands, balls, chocolates, stars, angels and other ornaments. The typical dinner consists of soup, carp fried and potato salad. My mum cooks this dinner. After dinner, we go into the living room, where many gifts under the tree and open gifts. The following two days visiting relatives, relax and eat sweets.

I spend with my grandparents every day, when I was a child, because they lived in the same flat as me. We played different games and watched television. I often helped my grandmother in the kitchen. My grandfather liked to play cards with me.

I did not change the behavior of my parents, because I like them as they are. They are very good parents.

My future family should be big, because I love children and I would like at least free children.

I wish to have a big and beautiful house with a garden and my husband should be attractive.
