My favourite film

There are a lot of movie genres, for example sci-fi, comedy, action, romantic, drama, horror.

My favourite genres are action, comedy and romantic, because I like action, lovely story and fun.

I don't like horror, because I'm scared. The film I will write is Fast and Furious, because it's my lovely film. Fast and Furious is an action film and very popular around world. Director is Rob Cohen. The main actors are Vin Diesel and Paul Walker. It's modern film. It takes place in Los Angeles. The film is about fast cars and illegal races. I like watching this type of moves, because I like action and beautiful actors. Dominic Toretto (Vin Diesel) has great respect and lovely his family and cars. Brian O'conner (Paul Walker) works as an undercover cop. The plot is very complicated- Dominic takes a gang Brian and work together on cars. They organize secret races. Dominic doesn't know that Brian is an undercover cop. I would recommend this film to someone who likes car and races.
